

Cyber Threat Defender Attacks Quiz

Fill in the Blanks using each term from the Legend Bank Only Once. Choose the answer that best completes the sentence.

1. _____ is an attack that occurs when someone clicks on a link which ran a program that encrypted all of their files and left a message demanding payment to get those files decrypted.
2. _____ is one of the most basic breaches in cybersecurity. Someone on the network has been targeted and exploited. Their login data has been used so it appeared they were a legitimate user. The hacker has stolen critical data.
3. This is an email-specific attack. Someone on your network opened an email that appeared to be from a friend with a specific Subject Line. This is called the _____ and it contains a file that destroyed system files when opened.
4. _____ is a specialized attack that creates emails specifically to look more convincing to fool them into revealing sensitive information.
5. Attackers will use a _____ attack to shut down a specific system. By overloading the system, it is now not functioning and no work can be accomplished on it.
